The master suite offers the ultimate in luxury and privacy—oversized bay windows beckon you to pause and enjoy the view, dual closets provide ample room for clothes and may tempt you to shop a bit more just so they don't look empty.

The gourmet kitchen features granite countertops, name-brand appliances and an abundance of counter and cupboard space. If you choose a second-floor residence, it will be crowned with a soaring vaulted ceiling adding to the overall feeling of spaciousness in this popular floorplan.
